Title: Customer Service Survey—Regulatory Program U.S. Army Corps of Engineers.

Needs and Uses: The survey form will be provided to the public when they receive a regulatory product, primarily a permit decision or wetland determination. The information collected will be used to determine what areas of the program can be improved and to consider policy areas which may need revision to improve customer satisfaction. Without this customer survey we could not comply with the Executive Order and would have to rely on more informal and less

structured, and therefore less effective, methods of obtaining public input.

Affected Public: Individuals or Households; Business or other for-profit; Not for profit institutions; Farms; Federal Government; State, Local or Tribal Government.

Annual Burden Hours: 15,000.

Number of Respondents: 60,000.

Responses Per Respondent: 1.

Average Burden Per Response: 15 minutes.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION: Without conducting this survey, the Corps cannot comply with the executive order or learn of all areas of customer dissatisfaction that warrant program change.
